Brake Anti-squeal

Ref. 44632

6x250gr

USE

Bardahl Brake Anti-Squeal lubricates the braking mechanism and eliminates the high frequency screeching and squealing of brakes due to friction and vibration of the pads on the discs.

It is particularly effective for the lubrication and protection of bearings, rollers, axes, etc.

It is used in all areas of application: auto, motorcycle, quads, HGV, etc.

PROPERTIES

Bardahl Brake Anti-Squeal has the following properties:

- Resists high temperatures
- Resists vibrations and high pressures
- Eliminates vibration, noise and brake squeal
- Excellent adhesion, does not drip
- Quickly dries
- Anti-seize and anti-corrosion protection
- Ensures excellent heat transfer between supports

INSTRUCTIONS FOR USE

Clean and degrease the surfaces to be treated.

Shake well before use.

Spray at 20 to 30 cm from the surface to be treated.
