- Eliminates bad smells (cigarette smoke, pets, food,...).
- **Bactericidal (EN1276), fungicidal (EN1650). Eliminates viruses (EN 14476).**
- Leaves a pleasant smell.
- Can be used for a 40m² room.

INSTRUCTIONS FOR USE

- ✓ Vacuum & disinfect the surfaces.
- ✓ Close the windows & open vents.
- ✓ Start the ignition or the engine.
- ✓ Turn the A/C off & set the heating system to maximum cold.
- ✓ Set ventilation to medium position & the air recycling control to ON.
- ✓ Shake can thoroughly.

OPTION N°1 • PUSH AND LEAVE BUTTON

- ✓ Place the aerosol in the cup holder at the center of the console or on the floor on the passenger side and push on the top button until you hear a "click".
- ✓ Leave the vehicle and close the door.

OPTION N°2 • PUSH AND HOLD BUTTON

- ✓ Slightly open the door on the passenger side and pass the arm through the passenger compartment.
- ✓ Spray all of the aerosol upwards, spreading the product evenly in the passenger compartment (do not spray directly on the LCD screens).

- ✓ Let it act for 15 minutes.
- ✓ Ventilate well.
