

TROPICAL COOLANT

DESCRIPTION

BARDAHL Tropical Coolant is a ready for use universal type coolant which has been developed for warm countries. It is formulated from a concentrate of corrosion inhibitors free of nitrites, amines, phosphates, borates and silicates.

APPLICATION

This product is only recommended in geographical areas where temperatures do not fall below 0°C. For cars less than 5 years old, we advise you to use an XCL Bardahl coolant containing ethylene glycol and having a freezing point of minus 25°C, regardless of the geographical area.

SPECIFICATIONS

BARDAHL Tropical Coolant offers an antifreeze protection of -3°C.

TECHNICAL DATA

Boiling Point	101°C
